### **DETAILED ACTION**

1. This Office action is in response to Applicant's request for Pre-Appeal conference filed July 14, 2005 and the decision made during the Pre-Appeal conference meeting on September 05, 2005.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 26-32 are again rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specifications fails to disclose how the combination alarm and locator system 10 is implemented so that it can possibly determine its location and transmit a location signal to a plurality of satellites for determining the location of the device.

#### ***Response to Applicant's Arguments***

Art Unit: 2612

4. In reponse to the 35 U.S.C. 112, first paragraph rejection, the applicant has cited some pages and lines/paragraph in the specification as evident that the disclosure is enable. Nonetheless, the disclosure only discloses the communications between the devices in the system. The disclosure fails to disclose what could possibly provide the handheld device with the capability to communicate with the satellites in the orbit. The invention, as disclosed, is considered to be inoperable, unless the applicant provides proof of experimentation that the handheld device has the capability of performing communications with the orbiting satellites.

### *Conclusion*

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
